Our Mission

We improve the health of our communities by preserving and restoring natural areas and open space, protecting rivers and watersheds, and promoting stewardship of our environment.

We Believe

Every person, regardless of where they live or their social-economic status, deserves clean water, clean air, healthy food, and safe access to nature as a way to be healthy and happy.

September 2024

The Forest Preserve District of Kane County will ask voters if they want to improve their forest preserves on November 5. We urge you to support this issue of improving the quality of life and keeping our air and water clean by voting in favor for the land preservation and preserve improvement referendum.

If this referendum is approved by the voters, an average of 125 acres a year, on average, will be protected and added to the Kane County forest preserves for people and wildlife. This would make the forest preserve district eligible for matching funds that would allow them to accomplish even more.

The funds will also be used to improve air and water quality, restore more wildlife habitat, provide more natural flood control, keep our forest preserves clean and safe, and have a more stable and sustainable source of funding for the future. Our forest preserves play a key role in helping us maintain our mental and physical health, and our overall quality of life.

The Conservation Foundation has helped preserve our land and water resources throughout in Kane County, and encourages you to make an extra effort to go vote on November 5 and say “yes” for our forest preserves.

Brook McDonald,
President/CEO
